Learning in Retirement (LinR) information map

The Learning in Retirement classroom is in room 124 of the Leeds House building, which is on the lower level. Once you enter the building through the main entrance, take the elevator to level 1.

Alternatively, you may also enter at the tunnel entrance. Once inside, turn right and follow to the end of the hallway and through the glass doors.

There are a few parking spots designated for persons with disabilities in the semi-circular drop-off zone. A parking pass is still required for those spaces.

The best wheelchair access to Leeds House is from the drop-off zone in front of the building.

If you require safety assistance please call 613-520-4444.
